

Professional Licensure Disclosures

The information below is intended to help prospective and current students determine whether the following programs lead to professional licensure in each state. Even if a program does not lead to licensure in your state, it may still be possible to obtain licensure via reciprocity with New Mexico. Licensure information is collected and updated annually by each program's department chair or director. Please contact the appropriate person below if you have any questions about professional licensure.

Communicative Disorders

[Master of Science in Communicative Disorders](#)

The M.S. in Communicative Disorders program leads to professional licensure in Speech-Language Pathology or an equivalent license in any of the 50 states or the District of Columbia, either directly or through reciprocity with New Mexico.

[The Associate of Science in Speech Language Pathology Assisting](#)

The Associate of Science in Speech Language Pathology Assisting leads to professional licensure as an SLPA in many states; however, students should be advised that not all states offer the SLPA license, and some states require a bachelor's degree in CDIS or specific CDIS coursework to meet licensure requirements. Through the advising process, each student's degree plan is individualized to meet licensing requirements applicable to their state of residence. To learn more, please contact the CDIS program director at Suzanne.Swift@enmu.edu
